ANSHUL THAKUR

Junior Software Developer | .NET | ASP.NET Core | C# | Azure | SQL Server

+91-7009305024 | anshul1999thakur@gmail.com | Sahibzada Ajit Singh Nagar, Punjab, India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Junior Software Developer with 1+ years of experience in full-stack web development using ASP.NET Core MVC, C#, .NET Web APIs, and SQL Server. Proven ability to design and deliver secure, scalable RESTful APIs with JWT authentication and AES-256 encryption. Hands-on expertise in Microsoft Azure (Azure Blob Storage, Azure OpenAI Service), ML.NET, and Entity Framework Core. Experienced in Agile/Scrum environments with strong skills in debugging, code optimization, and cross-functional collaboration. Passionate about integrating AI/ML solutions and delivering high-quality software following SOLID principles and microservices architecture.

TECHNICAL SKILLS

Languages: C#, SQL

Cloud & AI: Microsoft Azure, Azure Blob Storage, Azure OpenAI Service, Azure AI

Security: JWT Authentication, AES Encryption, OAuth 2.0, Role-Based Access Control

Frameworks: ASP.NET Core MVC, .NET Web API, React.js, ML.NET, Entity Framework Core

Databases: MS SQL Server, Stored Procedures, Database Design, Query Optimization

Tools & Practices: Git, GitHub, Visual Studio, Swagger/OpenAPI, Postman, Agile/Scrum, SOLID Principles

PROFESSIONAL EXPERIENCE

Junior Software Developer | CS Soft Solutions (India) Pvt Ltd **Feb 2025 – Present**

Technologies: ASP.NET Core MVC, C#, React.js, ML.NET, Azure OpenAI Service, Azure Blob Storage, MS SQL Server, REST APIs, JWT, Entity Framework Core

Software Developer Intern | CS Soft Solutions (India) Pvt Ltd **Aug 2024 – Jan 2025**

Technologies: ASP.NET Core, C#, REST APIs, Swagger/OpenAPI, React.js, SQL Server

PROJECTS

Safety First – Comprehensive Safety Management System

- Architected secure RESTful APIs using ASP.NET Core with JWT authentication and AES-256 encryption, ensuring enterprise-grade data security and compliance.
- Designed normalized SQL Server database schema and optimized stored procedures for high-performance data access across safety reporting modules.

Stack: ASP.NET Core MVC, C#, SQL Server, Azure Blob Storage, JWT, AES Encryption, REST APIs, SMTP

Predictive Maintenance System – ML.NET & Azure OpenAI (GPT-4)

- Built AI-powered predictive maintenance system using ML.NET classification models to predict equipment failures, estimate downtime, and perform root cause analysis.
- Integrated Azure OpenAI Service (GPT-4) to generate natural language preventive maintenance suggestions and AI-driven insights for field engineers.

Stack: ML.NET, Azure OpenAI Service (GPT-4), ASP.NET Core, C#, SQL Server, REST APIs, Azure AI

Shipcaddie – Logistics & Shipping Platform

- Contributed to backend development by designing and updating FedEx API request/response payloads to meet third-party certification requirements, enabling successful FedEx integration.
- Debugged and resolved complex backend issues in ASP.NET Core, improving API reliability and data accuracy across shipment tracking modules.

Stack: ASP.NET Core, C#, REST APIs, FedEx API, SQL Server, Entity Framework Core

EDUCATION

Master of Computer Applications (MCA) – Chandigarh University | Grade: A Jun 2022 – May 2024

Bachelor of Computer Applications (BCA) – Himachal Pradesh University | Grade: A++ Oct 2017 – Oct 2020

CERTIFICATIONS

Developing Web Applications using ASP.NET Core MVC | Infosys Springboard | Issued: Feb 2024
